

**CSR ROJECTS APPROVED BY THE BOARD OF**  
**SBI PENSION FUNDS PRIVATE LIMITED FOR FINANCIAL YEAR 2023-2024**

<b>Sr. No.</b>	<b>Sector</b>	<b>Description of Activities / Initiatives</b>
<b>1</b>	<b>Health</b>	Bhaktivedanta Hosital and Research Institute - Shri Chaitanya Health and Care Trust – Purchase of Fiber Laser for Urology treatment. The fiber laser will be installed and operated at Bhaktivedanta Hospital and Research Institute. These lasers will be used for endoscopic procedures such as laser enucleation of the prostate (holmium laser enucleation of the prostate, HoLEP), urethrotomy, and bladder tumor resection. They are effective for the treatment of urinary stones, including ureteroscopy and percutaneous Holmium lasers are used for ureteroscopy, laser lithotripsy (breaking down urinary stones), and treatment of benign prostatic hyperplasia (BPH). In BPH, holmium laser enucleation of the prostate (HoLEP) is a popular technique.
<b>2</b>	<b>Health</b>	Project Dependence to Independence: Providing prosthetic aids to physically disabled beneficiaries in Maharashtra by Ratna Nidhi Charitable Trust. The Trust will be engaged in the process of identification, Screening, Manufacturing and Distribution of 631 prosthetic aids (481 foot/ calipers/ prosthetic hands and 150 crutches) to around 590 physically disabled beneficiaries in Maharashtra. The project seeks to provide free prosthetic limbs to the identified beneficiaries and also provide them with skill training which will make them be financially independent.
